

Brainspotting

Phase I

Online

What is Brainspotting?

Brainspotting is a powerful, focused treatment method that works by identifying, processing and releasing core neurophysiological sources of emotional/body pain, trauma, dissociation and a variety of challenging symptoms. Brainspotting is a simultaneous form of diagnosis and treatment, enhanced with BioLateral sound, which is deep, direct, powerful yet focused and containing.

Who

Classes are open to all counselors, psychologists, and students who are curious and seek to expand their knowledge. Earn 21 CE's for training (*Additional Cost*)
